

Pentair FreshPoint F2000 Under Counter Filtration System

McKay's
ESTD *CO.* 1927

Celebrating 97 years!

OVERVIEW

Transform ordinary tap water into clearer, more refreshing water with the turn of your tap. The Pentair FreshPoint F2000 Under Counter Filtration System features a set of twin carbon blocks with lead reduction media to reduce sediment and more than 60 contaminants, like chlorine, lead, Cysts*, and volatile organic compounds (VOCs).

Manufactured by Pentair

2-STAGE FILTER BENEFITS

No more expensive plastic bottled water

Unlimited water on tap

No more bulky water pitchers in the refrigerator

Zero water waste

Cleaner and refreshing water

Easy to install with dedicated side faucet

This system uses a set of twin carbon blocks to reduce more than 60 contaminants.

FEATURES

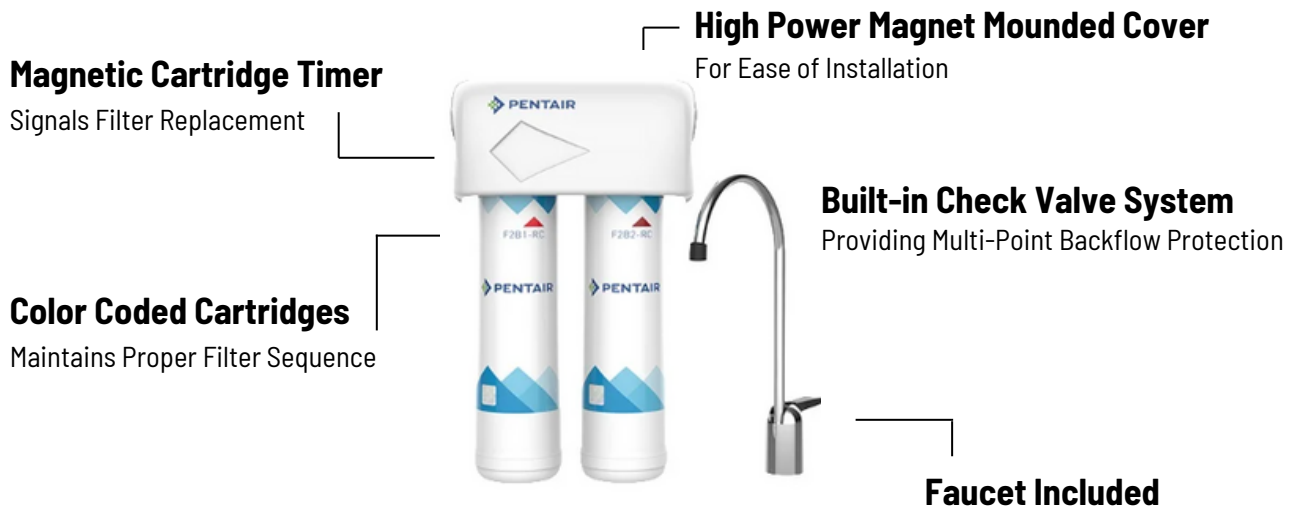

- Effortless click-in cartridge change-outs
- ® Color-coded cartridges maintain proper filter sequence
- ® 3/8" push fittings for easy installation
- ® Optional filter life monitor provides visual filter replacement notification (Model F2000-B2M only)

MODEL F2000

Parts Included:

- Side faucet
